

North Tyneside Council

Freedom of Information Request FOI1321

Request:

Please could you provide me with the number of public toilets available in your area, whether or not there is a charge for their use, and the number of times that they have been registered as out of use in the last 4 years please.

I would like to receive this information in an excel document via email please.

Submitted on 06/06/19.

Response:

We currently have 20 public toilet facilities located throughout the borough, 3 of which are under private management and one of those levies a charge for use.

We do not record the details of when a toilet facility is out of use.
