

North Tyneside Council

Freedom of Information Request FOI2135

Request:

You kindly provided pothole data for the total number of potholes reported during 2015, 2016, 2017, 2018 and 2019.

Because I submitted the FOI request in Nov last year, you weren't able to give me a complete data set for 2019.

Would it be possible to send me a figure for total potholes reported (by public and/or inspectors) for the whole of 2019.

Previous response is attached for reference.

Submitted on 07/01/20.

Response:

The total number of potholes reported by the public and/or inspectors for the whole of 2019 is 9148
