

Reference: EIR-791

Request:

Can you provide information on any programs or initiatives aimed at reducing waste or promoting recycling in the area?

Response:

This information is readily available on the North Tyneside Council website <https://my.northtyneside.gov.uk/>

The homepage includes a link to the Authority's Climate Change Hub, which sets out what the Authority is doing to promote sustainability and environmental action across the borough, and reduce carbon emissions within the organisation and across the borough, as well as the progress that has been made against achieving these goals: [Action on climate change | North Tyneside Council](#)

This includes the [Carbon Net-Zero 2030 Action Plan](#), which outlines 150 individual actions that the Authority is undertaking to work towards reaching the target to be carbon net-zero by 2030. This Action Plan was published in August 2022 and progress is assessed and the Action Plan updated on an annual basis. This includes an entire workstream dedicated to reducing waste and promoting recycling in the area, labelled "waste, re-use and recycling".

The information supplied to you is owned by the council unless otherwise stated and may be protected by copyright. You are free to use it for your own purposes, including any non-commercial research or for the purposes of news reporting. Any other re-use of a commercial nature will require the permission of the Council. Further enquiries in this respect should be directed to Head of Law and Governance, North Tyneside Council, Quadrant The Silver Link North, Cobalt Business Park, North Tyneside, NE27 0BY
