

Reference: FOI2650

Request:

Please supply all information requested, (Please use the time frame 1/5/2018 to 30/4/2020 in my request for information).

1. Comprehensive trail and the destination of all plastic material sent for recycling by North Tyneside Council.

North Tyneside Council has a contract to take it's dry recycling, including any recyclable plastics, to a Material Recovery Facility (MRF). The material is then segregated and sent to a licenced reprocessor. It is up to the MRF where they send and what quantity goes to the licenced sites.

The contractor has to inform the Council of what material and quantities go to each reprocessor as this has to be reported on a quarterly basis to Central Government.

Local authorities in the UK have a statutory duty to report all waste tonnages and destination information to www.wastedataflow.org. This is a publicly available database to which anyone can register to view the information for individual local authorities.

2. The name of every company and their involvement in each stage of the plastic material reaching the destination.

The following information was provided by contractors. 1 April 2018 to 30 September 2019 Biffa Waste Services and from 1 October 2019 to 31 May 2020 by J & B Recycling. Please note the level of detail varies depending on the contractor.

--End destinations (Plastics)--

Quarter 1 Apr 2018 - Jun 2018 (Biffa Waste Services) Plastic Bottles 235.62 tonnes

- DTS Trading Ltd, Cranmore Drive, Shirley, Solihull, West Midlands, B90 4RZ 22.00% 51.83 tonnes
