

**Request:**

1. I wish to confirm the number of parking officers employed by North Tyneside Council.

There are currently 12 Civil Enforcement Officers Employed by North Tyneside Council

2. With the distribution of parking officers between the 20 wards of North Tyneside council, why is it every weekend (both Saturday and Sunday) that parking officers are in the Tynemouth ward?

North Tyneside Council operate a dynamic enforcement strategy to ensure efficient monitoring of all the on-street and off street parking restrictions in operation around the Borough. Whist Officers will deploy to each of the main town centres , the Foreshore and in its public car parks daily, the rest of the restrictions around the Borough tend to be inspected in direct response to complaints from the public/ Local Councillors or the intelligence information received via the Council staff. To ensure the Council delivers an effective enforcement regime, it will not provide details of any planned visits.
