\*Was the alert substantiated or unsubstantiated?

\*If substantiated, please state the action taken.

\*Were police called?

\*Was a prosecution brought?

Re the above \* - substantiated or unsubstantiated is not collected mandatory inline with statutory reporting. Data is collected based on the action taken and the risk. To identify if the police were called or a prosecution brought would require a manual check of safeguarding minutes.

For clarity I don't want data for residents of care homes. I am specifically looking for data on people who live in sheltered housing, supported living and any other similar schemes which assist people to live independently.

Your response should include all referrals you've received, including all council-run services and those provided by the independent/private sector.
