

Reference: RFI 1805087

**Request:**

- 1.) What is the name of the system the council operates for both the adults and children's social care case management systems?

Liquidlogic

- 2.) When do the contracts for both the adults and children's social care case management systems expire?

December 2021, with the option to extend for 2 years.

- 3.) If the council was in a position to procure a new adult's (and/or) children's social care case management systems, who would be the person to lead that procurement process?

As we are not in a position to procure a new system, and will not be until at least 2021, we do not hold this information. All procurements have to follow Contract Standing Orders, which are available at: <https://my.northtyneside.gov.uk/category/304/council-constitution>

- 4.) If the council was in a position to implement a new system for adult's (and/or) children's social care case management systems, who would be the person to lead that implementation process?

As we are not in a position to procure a new system, and will not be until at least 2021, we do not hold this information.
