

Reference: RFI 1708032

Request:

How many children were referred to children's social services due to concern that they may be at risk of child sexual exploitation in 2016? It may well be that your authority only records this statistic after assessment and if that is the case can you state that on your return.

Does this represent an increase on previous years? If you do not have the previous years 2014/15 15/16 then please state that is the case

If so by how many?

Factor at Assessment	2014-15	2015-16	2016-17
11A - Child Sexual Exploitation	13	49	20
