

North Tyneside Council

Delegated Decision Report

Date: 21 December 2022

Title: Traffic Regulation Order – 20mph Speed Limit – West Lane area, Killingworth

Report by: Nick Saunders, Senior Traffic Engineer

Report to: John Sparkes, Director of
Regeneration and Economic
Development

Wards affected: Killingworth

PART 1

1.1 Executive Summary:

This report seeks a delegated decision to advertise and, in the event that no objections are received, make a Traffic Regulation Order (TRO) for the introduction of a 20mph speed limit on West Lane, Killingworth and adjoining side streets.

1.2 Recommendation(s):

It is recommended that the Director of Regeneration and Economic Development makes a delegated decision:

- (1) that notices for the proposal should be prepared and advertised in line with relevant statutory requirements;
- (2) that in the event that no objections are received following the period of consultation required by statute, that the circumstances do not warrant the holding of a Public Inquiry; and
- (3) that if no objections are received following the period of consultation required by statute, the Traffic Regulation Order shall be made.

1.3 Forward Plan:

Seeking delegated decisions to advertise and, in the event that no objections are received, to make Traffic Regulation Orders is a standing item on the Forward Plan.

1.4 Council Plan and Policy Framework

The proposals in this report relate to the following priority in Our North Tyneside, the Council Plan 2021 to 2025:

- A green North Tyneside
 - We will increase opportunities for safe walking and cycling, including providing a segregated cycleway at the coast
 - We will publish an action plan of the steps we will take and the national investment we will seek to make North Tyneside carbon net-zero by 2030

1.5 Information:

1.5.1 Background

In accordance with the Authority's aims to improve road safety, it is proposed to reduce the speed limit and introduce traffic calming measures on West Lane, Killingworth.

The full scheme involves proposals to introduce a 20mph speed limit on West Lane, Killingworth and adjoining side streets, and install road humps on a section of West Lane.

Traffic surveys conducted at various points on West Lane indicated that existing vehicle speeds conform to the Department for Transport guidance for a 20mph speed restriction, with the exception of the section in the vicinity of Percy Hedley School. As such, the full scheme includes the introduction of physical traffic calming measures on this section only.

1.5.2 Proposal in relation to speed limit

In accordance with the Authority's aims to improve road safety, it is proposed to introduce a 20mph speed limit on West Lane, Killingworth from a point 145 metres north of its junction with Great Lime Road to its junction with Killingworth Road. This includes the section adjacent to Percy Hedley School where an advisory 20mph speed limit current applies. It is also proposed to introduce a 20mph speed limit on four adjoining streets: Green Lane, Castles Green, Stoneycroft West and The Spinney. All streets or sections of streets described are currently subject to a 30mph speed limit.

The proposed introduction of a 20mph speed limit will reduce traffic speeds in the area, thereby increasing safety for all road users and contribute to ensuring that highway conditions are conducive to support greater usage of cycling, walking and wheeling.

1.5.3 Consultation

Letters have been issued to households in the area and Percy Hedley School to set out the elements of the proposed scheme. Killingworth ward members have been updated on the proposals by email.

Arrangements were also made to contact the standard technical consultees in writing to advise of the proposals in September 2022 as well as consultation with a local residents' group.

1.5.4 Proposed next steps

Proposals that restrict traffic movements are subject to statutory legal process as described in section 2.2: this includes the local authority giving public notice of the proposals and taking such other steps as it may consider appropriate for ensuring

adequate publicity. In North Tyneside, this includes notices advertising proposals being displayed on affected streets and on the Authority's website. This enables members of the public or businesses to object to the proposal. Any objectors are sent a response and invited to reconsider their objection. Any objections not withdrawn are referred to the Cabinet Member for Environment for consideration in accordance with the Scheme of Delegation for Cabinet Members.

1.6 Decision options:

The following decision options are available for consideration by the Director of Regeneration and Economic Development:

Option 1

To approve the recommendations as set out in paragraph 1.2 above.

Option 2

Not to approve the recommendations as set out in paragraph 1.2 above.

Option 1 is the recommended option.

1.7 Reasons for recommended option:

Option 1 is recommended for the following reasons:

The proposals will increase safety for all road users and contribute to ensuring that highway conditions are conducive to support greater usage of cycling, walking and wheeling.

- (2) [Road Traffic Regulation Act 1984](#)
- (3) [Local Authorities' Traffic Orders Regulations 1996](#)

PART 2 – COMPLIANCE WITH PRINCIPLES OF DECISION MAKING

2.1 Finance and other resources

Funding to advertise and implement the proposal is available from the 2022/23 Local Transport Plan Road Safety Initiatives Budget.

2.2 Legal

Proposals that involve revocations or amendments to existing traffic regulation orders and any new such orders are subject to statutory legal process set out in the Road Traffic Regulation Act 1984 and the Regulations that flow from that Act, namely, the Local Authorities' Traffic Orders (Procedure)(England and Wales) Regulations 1996. All schemes are formally advertised and include a 21-day period for objections. Before making a Traffic Regulation Order the Authority must consider all objections made and not withdrawn, and can decide whether to make the Order unchanged, to make the Order with modifications or not to proceed with the Order.

The order making Authority is required to publish at least one notice detailing the proposal in a local newspaper in addition to taking such other steps as it deems appropriate for ensuring adequate publicity is provided. Authorities are also required to make documents relating to the proposal available for public inspection. In North Tyneside, in addition to being advertised in a local newspaper, notices advertising the proposal are displayed on the Authority's website and on roads affected by the order. Documents relating to the proposal are also available for public inspection at the Authority's offices at Quadrant. Objections to the proposal may be made within a period of 21 days starting from the date the notice was published.

In accordance with the Authority's scheme of Delegation to Cabinet Members, if any objections cannot be resolved, then the Cabinet Member for Environment is asked to consider those objections made and not withdrawn and to determine if those should be set aside to enable the Traffic Regulations Order to be made.

Within 14 days of the making of the Traffic Regulation Order, the order making authority must notify any objectors, publish a notice of making in a local newspaper and take such other steps as it deems appropriate for ensuring adequate publicity is given to the making of the order. In North Tyneside, in addition to being advertised in a local newspaper, notices of making are displayed on the Authority's website and on roads affected by the order. Documents relating to the order are also available for public inspection at the Authority's offices at Quadrant.

2.3 Consultation/community engagement

2.3.1 Internal consultation

Internal consultation has involved the Cabinet Member for Environment. Ward members' views on the proposal were sought as described in section 1.5.3.

2.3.2 Community engagement

Views on the proposal were sought as described in section 1.5.3. The proposal is to be advertised in line with statutory process as also set out in section 1.5.4.

2.4 Human rights

The proposals within this report do not have direct implications in respect of the Human Rights Act 1998.

2.5 Equalities and diversity

An Equality Impact Assessment for the scheme has been undertaken and is attached as Appendix 2 to this report. This notes that most of the identified potential impacts are positive; these related to improved accessibility for people who currently experience difficulty crossing the road. Actions are specified to reduce the identified potential negative impact relating to access arrangements during construction work.

2.6 Risk management

There are no risk management implications arising directly from this report. Strategic and operational risks associated with transport matters are assessed via the established corporate process.

2.7 Crime and disorder

There are no crime and disorder implications directly arising from this report.

2.8 Environment and sustainability

There are potential positive implications in that the proposals support the use of more sustainable modes of transport in preference to car use.
