

North Tyneside Council

Report to Director of Regeneration and Economic Development

Date: 21 March 2023

Title: Pedestrian crossing – West Bailey, Killingworth

Report by: Gary Walker, Sustainable Transport Team Leader

Report to: John Sparkes, Director of Regeneration and Economic Development

Wards affected: Camperdown

PART 1

1.1 Executive Summary:

This report seeks a delegated decision to advertise a proposal to establish and, in the event that no objections are received, proceed to establish a zebra crossing (pedestrian crossing) on West Bailey, Killingworth.

1.2 Recommendation(s):

It is recommended that the Director of Regeneration and Economic Development makes a delegated decision

- (1) that notices for the proposal should be prepared and advertised in line with relevant statutory requirements; and
- (2) that if no representations are received following the period of consultation, a pedestrian crossing shall be established in accordance with the proposal.

1.3 Forward Plan:

Seeking delegated decisions to advertise proposals to establish pedestrian crossings and, in the event that no objections are received, to determine that pedestrian crossings should be established, is a standing item on the Forward Plan.

1.4 Council Plan and Policy Framework

The proposals in this report relate to the following priority in Our North Tyneside, the Council Plan 2021 to 2025:

- A green North Tyneside

- We will publish an action plan of the steps we will take and the national investment we will seek to make North Tyneside carbon net-zero by 2030
- We will increase opportunities for safe walking and cycling, including providing a segregated cycleway at the coast

1.5 Information:

1.5.1 Background

In accordance with Authority's aims to improve road safety, it is improved to install a zebra crossing on West Bailey, Killingworth adjacent to Bailey Green Primary School. This will improve pedestrian links to the school and nearby nursery.

This proposal also includes footway widening on the north side of West Bailey adjacent to the school and associated amendments to the bus stop at this location to improve access to the stop for pedestrians.

A proposal to introduce waiting, loading and school keep clear restrictions in the vicinity of Bailey Green Primary School and 'Bailey's Butterflies' nursery has also been brought forward. The waiting restrictions proposed for West Bailey are intended to support the safe use of the proposed zebra crossing.

1.5.2 Proposal in relation to pedestrian crossing

It is proposed to install a zebra crossing on West Bailey at a point 17m east of its junction with Hamsterley Drive as shown on the plan at Appendix 1.

The proposed introduction of the zebra crossing will facilitate safe walking and wheeling in the vicinity of the school particularly at school start and end times and the amendments to the footway and bus stop will further support sustainable travel in this area.

1.5.3 Consultation

Engagement on the scheme was undertaken in November and December 2022. This included contact being made with the standard technical consultees, ward members and the school and nursery.

Letters have also been issued to households in the area to set out the elements of the proposed scheme. The Cabinet Member for Environment and ward members have been updated on the proposals.

1.5.4 Proposed next steps

Proposals that restrict traffic movements are subject to statutory legal process as described in section 2.2: this includes the local authority giving public notice of the proposals and taking such other steps as it may consider appropriate for ensuring adequate publicity. In North Tyneside, this includes notices advertising proposals being displayed on affected streets and on the Authority's website. This enables members of the public or businesses to object to the proposal. Any objectors are sent a response and invited to reconsider their objection. Any objections not withdrawn are referred to the Cabinet Member for Environment for consideration in accordance with the Mayor's Scheme of Delegation.

1.6 Decision options:

The following decision options are available for consideration by the Director of Regeneration and Economic Development:

Option 1

To approve the recommendations as set out in paragraph 1.2 above.

Option 2

Not to approve the recommendations as set out in paragraph 1.2 above.

Option 1 is the recommended option.

1.7 Reasons for recommended option:

Option 1 is recommended for the following reasons:

The proposals will improve road safety in the vicinity of the school and nursery whilst contributing to ensuring that highway conditions are conducive to support greater usage of cycling, walking and wheeling.

- (2) [Road Traffic Regulation Act 1984](#)
- (3) [The Traffic Signs Regulations and General Directions 2016](#)

PART 2 – COMPLIANCE WITH PRINCIPLES OF DECISION MAKING

2.1 Finance and other resources

Funding to advertise and implement the proposal is available from the 2022/23 (Sustainable Transport) Local Transport Plan budget.

2.2 Legal

Proposals that involve revocations or amendments to the provision of pedestrian crossings and the installation of any new pedestrian crossings are subject to statutory legal process set out in the Road Traffic Regulation Act 1984 and the Regulations that flow from that Act, namely, The Traffic Signs Regulations and General Directions 2016. The authority which makes the proposal is required to consult the chief officer of police about its proposal and give public notice of the proposal.

In North Tyneside, in addition to being advertised in a local newspaper, notices advertising the proposal are displayed on the Authority's website and on roads affected by the order. Documents relating to the proposal are also available for public inspection at the Authority's offices at Quadrant. Objections to the proposal may be made within a period of 21 days starting from the date the notice was published.

In accordance with the Mayor's Scheme of Delegation, if any objections cannot be resolved, then the Cabinet Member for Environment is asked to consider those representations made and not withdrawn and to determine if a pedestrian crossing should be established.

2.3 Consultation/community engagement

2.3.1 Internal consultation

Internal consultation has involved the Cabinet Member for Environment. Ward members' views on the proposal were sought as described in section 1.5.3.

2.3.2 Community engagement

Views on the proposal were sought as described in section 1.5.3. The proposal is to be advertised in line with statutory process as set out in section 1.5.4.

2.4 Human rights

Any human rights implications must be balanced against the duty that the Authority has to provide a safe highway for people to use. It is not considered that the proposed restrictions will have a negative impact on individuals' human rights.

2.5 Equalities and diversity

An Equality Impact Assessment for the West Bailey, Killingworth – proposed zebra crossing and waiting restrictions proposals has been undertaken and is attached as Appendix 2 to this report. It is noted that a number of the identified potential impacts are positive: these relate principally to improved accessibility for people who currently experience difficulty using footways and crossing the road. Actions are specified to reduce an identified potential negative impact relating to access arrangements during construction work.

2.6 Risk management

There are no risk management implications arising directly from this report. Strategic and operational risks associated with transport matters are assessed via the established corporate process.

2.7 Crime and disorder

There are no crime and disorder implications directly arising from this report.

2.8 Environment and sustainability

There are potential positive implications in that the proposals support the use of more sustainable modes of transport in preference to car use. The proposals therefore support the target within the Carbon Net-Zero 2030 Action Plan to reduce car-based school trips.
