

Under 5s SWIMMING

Ducklings is an adult and child session where your child can work towards four grades of colourful awards – each with its own certificate and badge!

Baby Time is dedicated time in the small pool for parents and carers to enjoy the water with their baby. Sessions will help build water confidence and provide an opportunity to socialise with other parents/carers and babies.

Baby Buoys is a parent and baby session designed to encourage water confidence in young babies.

Toy Time is an opportunity for babies and children to play with an assortment of toys in the water including watering cans, squirly fish and toy ducks!
