

Special Edition

May 2019

Forest Hall Public Realm Improvement Scheme

This special edition of Your Forest Hall Update contains information about the installation of permanent parking bay markings along Station Road North.

At a glance

Walking and cycling: Unaffected.

On the road: Parking bays on the northern side of Station Road North will be unavailable while the permanent markings are being laid during w/c May 13.

What we will do

During w/c May 13, our team will return to replace the temporary parking bay markings with setts (raised markings) on the northern side of Station Road North.

Weather permitting, the work should take around one week. It could not be done as part of the main scheme as the new road surface needed time to bed in prior to the installation of the setts.

The parking bays will be unavailable while the setts are being installed and we apologise for any inconvenience caused. It may also be necessary to close the bays overnight while the new markings set.

To keep disruption to a minimum, the team will complete the bays one section at a time, starting opposite the Flying Scotsman pub and moving east.

Contact

If you have any questions or concerns, please don't hesitate to contact the Major Projects Team on 0191 643 6500 or email: ForestHallTeam@northtyneside.gov.uk
